

New Energy Storage Project Cooperation Plan

New Energy Storage Project Cooperation Plan

In January , the National Development and Reform Commission and the National Energy Administration jointly issued the Implementation Plan for the Development of New Energy Storage during the 14th Five-Year Plan Period, emphasizing the fundamental role of new energy storage technologies in a new power system. China unveils three-year action plan to boost new-type energy storageSep 12, The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, New Energy Storage Technologies Empower Energy Power generation forecast for different energy sources worldwide, 1000TWhElectricalMechanical2.
