

## The latest on Victorian energy storage project planning

The latest on Victorian energy storage project planning

Does Victoria have a battery energy storage system? Victoria fast-tracks battery storage project for a sustainable energy future: The Victorian Government is assisting a renewable energy developer fast track its Battery Energy Storage System --now approved through the Development Facilitation Program. Will Victorian Government approve a battery energy storage system? The Victorian government has fast tracked the approval of what is to be one of the state's biggest battery energy storage systems as it seeks to accelerate the development of projects to support its renewable energy ambitions. What is Victoria's largest-ever battery storage project? The Victorian Government has approved the state's largest-ever battery storage project - a one-gigawatt facility that it says will deliver cleaner, cheaper, and more reliable renewable energy for hundreds of thousands of homes. Pacific Green's Portland Energy Park has been fast-tracked through the Government's Development Facilitation Program. How many energy storage projects are there in western Victoria? In March, 2 projects in Western Victoria were chosen to be part of The Energy Storage Initiative - one in Ballarat and one in Gannawarra. Construction for the Ballarat and Gannawarra Energy Storage Systems was completed in late . Both batteries began operating over the summer of and . How many large-scale storage systems does Victoria have? Victoria has 12 commissioned large-scale storage systems and 3 in commissioning - with a total output capacity of MW and storage capacity of more than 1.7 GWh. Storage capacity = how much total energy is stored in each battery. Output capacity = how much energy a battery can provide at a given time. Can Victorian energy storage be connected by ? Victorian Planning Minister Sonya Kilkenny said the new approvals pathway is playing a key role in achieving the state's energy storage targets of connecting at least 2.6 GW of energy storage capacity by and at least 6.3 GW with projections showing further cost reductions by 2030. Global battery energy storage company Pacific Green has secured planning approval from the Victorian Government to build a 1-GW/2.5-GWh battery energy storage system in the Portland area of southwest Victoria. A \$1.3 Billion Investment in Portland Energy Park, Expected 10 hours ago Pacific Green receives Victorian Government approval to invest A\$1.3 billion in Australia's largest 1-GW/2.5-GWh battery storage project in Portland, expected to operate in Victoria fast tracks small wind and giant Feb 17, A proposed small wind farm and a giant battery project can expect a planning decision within four months after being fast-tracked by Australia's Victoria government fast-tracks May 12, Developer AC Energy has seen its 350MW/770MWh Little River battery energy storage system fast-tracked by the Victoria Victoria fast tracks approval for 700 MWh May 12, The Victorian government has fast tracked the approval of what is to be one of the state's biggest battery energy storage systems as Australia's Victoria Fast-Tracks 500 MW Solar & Storage Farm Jun 6, The Victorian government in Australia has expedited approvals for 2 major renewable energy projects - a 500 MW solar farm integrated with a 300 MW battery energy Victoria to fast-track state's largest battery Sep 22, The Victorian Government has approved the state's largest-ever battery storage

## The latest on Victorian energy storage project planning

project - a one-gigawatt facility that it says will Batteries and energy storage projects Sep 2, Batteries and energy storage projects Victoria is the home of big batteries and has legislated storage targets of at least 2.6 GW by Approval granted for 4.9GWh of battery Sep 23, Pacific Green's Portland Energy Park (pictured) will feature four 250MW battery storage "parks". Image: Pacific Green. Victoria, Two key contracts awarded for \$700m Mar 7, Two key contracts awarded for \$700m Victorian battery energy storage system, construction to commence immediately and operational Victoria fast-tracks battery storage project for a sustainable energy May 14, The Victorian Government is assisting a renewable energy developer fast track its Battery Energy Storage System --now approved through the Development Facilitation A\$1.3 Billion Investment in Portland Energy Park, Expected 10 hours ago Pacific Green receives Victorian Government approval to invest A\$1.3 billion in Australia's largest 1-GW/2.5-GWh battery storage project in Portland, expected to operate in Victoria fast tracks small wind and giant battery projects Feb 17, A proposed small wind farm and a giant battery project can expect a planning decision within four months after being fast-tracked by Victoria government. Australia's Victoria government fast-tracks 700MWh BESS May 12, Developer AC Energy has seen its 350MW/770MWh Little River battery energy storage system fast-tracked by the Victoria government in Australia. Victoria fast tracks approval for 700 MWh battery project May 12, The Victorian government has fast tracked the approval of what is to be one of the state's biggest battery energy storage systems as it seeks to accelerate the development of Victoria to fast-track state's largest battery storage project Sep 22, The Victorian Government has approved the state's largest-ever battery storage project - a one-gigawatt facility that it says will deliver cleaner, cheaper, and more reliable Batteries and energy storage projects Sep 2, Batteries and energy storage projects Victoria is the home of big batteries and has legislated storage targets of at least 2.6 GW by and 6.3 GW by to provide crucial Approval granted for 4.9GWh of battery energy storage in Victoria Sep 23, Pacific Green's Portland Energy Park (pictured) will feature four 250MW battery storage "parks". Image: Pacific Green. Victoria, Australia, has seen just under 5GWh of battery Two key contracts awarded for \$700m Victorian battery energy storage Mar 7, Two key contracts awarded for \$700m Victorian battery energy storage system, construction to commence immediately and operational in By Margaret Ambrose on Victoria fast-tracks battery storage project for a sustainable energy May 14, The Victorian Government is assisting a renewable energy developer fast track its Battery Energy Storage System --now approved through the Development Facilitation Two key contracts awarded for \$700m Victorian battery energy storage Mar 7, Two key contracts awarded for \$700m Victorian battery energy storage system, construction to commence immediately and operational in By Margaret Ambrose on Elgin gets green light for biggest solar and May 14, A 150 MW solar farm and a 250 MWh battery energy storage system proposed for Victoria's Central Highlands by British renewables Victoria expands renewable energy zones, but Aug 17, UPDATED: Victoria expands zones for solar, battery and wind developments, but the cost of connection is expected to almost double. Wave of large-scale

## The latest on Victorian energy storage project planning

BESS planning, Jan 31, Akaysha Energy, rapidly becoming one of the country's best-known and most prolific new developers, has received planning approvals Construction begins at 1.6GWh Melbourne Sep 5, Construction has started at Melbourne Renewable Energy Hub, one of the largest energy storage projects in Victoria, Australia. Victoria fast-tracks 360MW solar-plus-storage Oct 3, The 360MW Mortlake solar-plus-storage project in Victoria, Australia, is the latest large-scale renewable energy project to be fast Energy Vault awarded BESS project contract Feb 14, Energy Vault has been tapped by Victoria's SEC to deliver a 100MW/200MWh government-owned battery energy storage system Trina Seeks Approval for 500-MW Battery Project in Victoria Nov 30, Trina Solar's ambitious 500-MW battery project in Victoria aims to boost grid reliability, while paving the way for Australia's renewable energy future. Community feedback Victoria fast-tracks battery storage project for a sustainable energy May 14, This priority project will deliver cheaper and cleaner energy, while supporting Victoria's transition to a sustainable energy future. ACEnergy's Battery Energy Storage Trina seeks permit for 500-MW battery Nov 29, Chinese supplier of photovoltaic (PV) and energy storage solutions Trina Solar Co Ltd (SHA:688599) has lodged a planning Rangebank BESS Project, Victoria, Australia Aug 14, The 200MW/400MWh Rangebank battery energy storage system (BESS) is an energy storage project under construction in Trina seeks approval for 1 GWh battery Nov 27, Chinese solar giant Trina Solar has lodged plans to build a 1 GWh battery energy storage system in Victoria as part of a broader Australian state sets one of world's biggest energy storage Sep 27, The 300MW/450MWh Victorian Big Battery, Australia's largest BESS project to date. Image: Victoria State government. Victoria, Australia, will target the deployment of Victorian solar and battery project gets new life following Mar 27, Victorian solar and battery project gets new life following acquisition and moves from planning and approvals towards construction By Margaret Ambrose on March 27, Edify lands federal approval for Victorian Nov 20, Renewables developer Edify Energy has secured federal government approval for a 250 MW solar farm and 200 MW / 800 MWh SEC to power one of the world's biggest Dec 4, The State Electricity Commission (SEC) is back, and its first investment will help build one of the world's biggest battery projects right EnergyAustralia submits application for Dec 6, EnergyAustralia filed planning applications for four-hour duration large-scale lithium BESS, in Victoria's Latrobe Valley. Octopus reaches fin close on 80-MW solar-storage project in Victoria Apr 10, The company, which developed the scheme in-house, said on Wednesday it has received equity capital from several key investors including Rest, the Clean Energy Finance Victoria fast-tracks battery storage project for a sustainable energy May 14, The Victorian Government is assisting a renewable energy developer fast track its Battery Energy Storage System --now approved through the Development Facilitation Two key contracts awarded for \$700m Victorian battery energy storage Mar 7, Two key contracts awarded for \$700m Victorian battery energy storage system, construction to commence immediately and operational in By Margaret Ambrose on
