Choose from a variety of listings from trusted sellers!How to run a python script from IDLE interactive shell?The IDLE shell window is not the same as a terminal shell (e.g. running sh or bash). Rather, it is just like being in the Python interactive interpreter (python -i). The easiest way to run a script in How do I open Python IDLE (Shell WIndow) in WIndows 10?Idle can be opened as an edit window or a shell window. To get the the idle edit window from the shell window is very simple if you know how. Here's how: Windows search for "idle" Click Is there a way to clear Python's IDLE window? I know there's a similar topic about the Python console, but I do not know if they are the same. I tried system("clear") and it didn't work here. How do I clear Python's IDLE window? Copying and pasting code directly into the Python interpreterMy answer is specifically about copy-pasting into the standard python shell (only tested on linux). Depending on where the code comes from and how it is originally formatted the whitespace How can I run IDLE for Python 3 in a Conda environment?For running Python 2, all I do is activate the required Conda environment and just type idle. It automatically opens IDLE for Python 2.7. But I can't figure out how to do this for Python 3. I starting Python IDLE from command line to edit scriptsIDLE main entry point Run IDLE as python -m idlelib So with python -m idlelib you will be able to open and edit the script with idle. I haven't checked with previous versions user interface I installed Python, latest version 3.4. and I am trying to open Python IDLE (GUI) mode, so when I open I get message "IDLE's subprocess didn't make connection. Either IDLE can't start or How do you add breakpoints to a Python program in IDLE?Completing the answer supplied by the OP: after setting

the breakpoint - you must turn on IDLE Shell's debug mode (using debug --> debugger). When you run the program, press "Go" in the Default save path for Python IDLE? In Windows 10+, click the Windows Start button, then type idle, and then right-click on the IDLE desktop app and open the file location. This should bring you to the Start Menu shortcuts for
